Adrian Valdivia

Engineering Student

ABOUT ME

I am a computer engineering student from FES Aragon, I am interested on learning new and amazing things from the computer cybersecurity field. I am excited to know new people and to introduce myself into labor world. I am responsible, proactive, I like to be involved and give solutions to problemas and I'm autodidact

Throughout the last two months I've been able to be in contact with the aviation world as a traffic agent at Menzies Aviation

EDUCATION

Technical career on Digital Systems (2016 - 2019)
Centro de Estudios Cientificos y Tecnologicos N°1 (IPN)

During my residency, I learnt the basis of electronics, programming and digital systems. I started to learn about the web development world, also. And I practiced preventive and corrective maintenance to computers.

Computer engineering (Augost 2019 - today)
FES Aragón UNAM

I'm in the third semester of the career. I'm passonate about it. I've been training my computer and programming skills since I'm in and I want to learn more.

English as a second language (2015 - 2018)
Quick Learning

At this institution I acquired my English knowledge. I started from basic to advanced and I was certificated as an upper intermidiate English user by ETS (TOEFL)
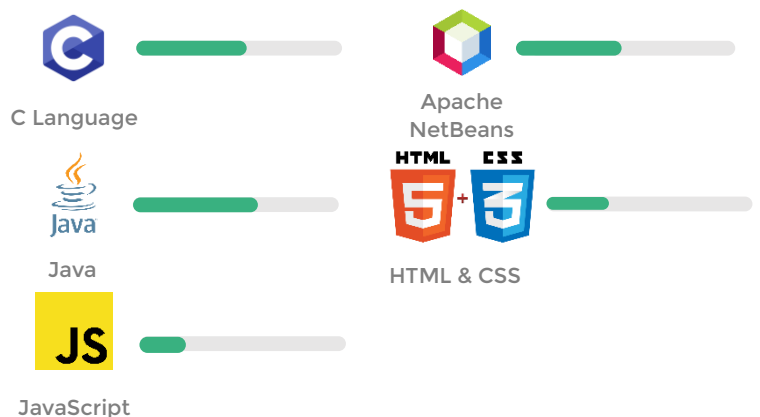

EXPERIENCE

Agente de tráfico
Menzies Aviation

My experience as an traffic agent was interesting, I made many activities like check in luggage and passengers while putting in practice all of the security procedures that I was taught. As traffic agent I was concious about how important is to do the security procedures in order to maintain security at high levels.
